

e-Pasca

STUDENT USER ACCEPTANCE TESTING (UAT) CHECKLIST

Universiti Teknikal Malaysia Melaka | Internal Use

Tester Name		Matric Number	
Programme		Study Mode	☐ Full Time ☐ Part Time
Test Date		Environment / URL	
Browser / Device		Build / Version	

Purpose. This checklist validates the complete Student role identified in the current e-Pasca implementation. It contains 104 test cases. Execute every applicable case and record evidence for each failure.

Result legend

☐ PASS	Observed result matches the expected result.
☐ FAIL	Function is incorrect, incomplete, unavailable or produces an error. Add an Issue Ref.
☐ N/A	Test cannot apply to this tester/data set. State the reason in the issue log or notes.

Important: Use only authorised test accounts and non-sensitive test data. Do not upload confidential research material into a non-production environment.

1. Test execution instructions

1	Prepare an active Student test account, an inactive Student account, and test data covering current-semester enrolment, activities, deadlines, submissions, reviews, evaluators and correction states.
2	For each test case, perform the stated action and compare the actual result with the expected result.
3	Tick exactly one of PASS, FAIL or N/A. For FAIL, assign an issue reference such as ISS-01 and complete the issue log.
4	Capture useful evidence: screenshot, exact error message, date/time, browser/device, activity/document name and steps to reproduce.
5	After a destructive test such as removal or password change, restore the test account/data if later cases depend on it.
6	The final acceptance decision should be made only after critical/high issues are resolved or formally accepted by the system owner.

Recommended test-data matrix

Data set	Minimum condition
Student accounts	Active, inactive, active-current-semester, inactive-current-semester
Submission dates	Future, due today, due tomorrow, within 7 days, overdue
Document states	No Attempt, Submitted, Overdue, Locked, archived/prohibited
Activity workflow	Open, pending approvals, approved, rejected, evaluation, correction, failed, continue next semester
Files	Valid PDF, non-PDF, PDF at/below limit, PDF above 100 MB, JPG/PNG profile photo, invalid photo
Academic records	Material available/missing, final document, correction document, evaluation report, reviews, evaluator roles, journal records

A. Authentication and password recovery

ID	Test function, action and expected result	Result	Issue Ref.
STU-A01	Open login page Action: Navigate to the e-Pasca root URL. Expected: UTeM logo, e-Pasca title, email and password fields, Remember me, Forgot Password and Sign in are displayed without layout errors.	☐ Pass ☐ Fail ☐ N/A	
STU-A02	Required login fields Action: Submit the login form with email and/or password empty. Expected: Browser/system prevents submission and clearly identifies the required field(s).	☐ Pass ☐ Fail ☐ N/A	
STU-A03	Email format validation Action: Enter an invalid email format and attempt to sign in. Expected: Invalid email is rejected; the form remains usable and no session is created.	☐ Pass ☐ Fail ☐ N/A	
STU-A04	Password visibility toggle Action: Enter a password and use the eye icon twice. Expected: Password changes from masked to visible and back without changing its value.	☐ Pass ☐ Fail ☐ N/A	
STU-A05	Invalid student credentials Action: Sign in using a valid-format email with an incorrect password. Expected: A clear error states that the email or password is incorrect; email remains available for correction.	☐ Pass ☐ Fail ☐ N/A	
STU-A06	Inactive student account Action: Attempt sign-in with a student account marked inactive. Expected: Access is refused and the user is told to contact the system administrator.	☐ Pass ☐ Fail ☐ N/A	
STU-A07	Successful student sign-in Action: Sign in with an active student email and correct password. Expected: User is authenticated, redirected to Student Dashboard, and sees the correct student identity.	☐ Pass ☐ Fail ☐ N/A	
STU-A08	Remember me option Action: Select Remember me, sign in, close and reopen the browser according to the test environment policy. Expected: The session persistence behaviour matches the configured policy and does not expose credentials.	☐ Pass ☐ Fail ☐ N/A	
STU-A09	Open Forgot Password Action: Select Forgot Password from login. Expected: Reset Password page opens with email field, Request Password Reset and Back to Login.	☐ Pass ☐ Fail ☐ N/A	
STU-A10	Unknown reset email Action: Submit an email not registered to a student or staff account. Expected: System reports that the email address was not found and does not disclose sensitive data.	☐ Pass ☐ Fail ☐ N/A	
STU-A11	Request student reset link Action: Submit the registered student email. Expected: Success message is shown and a reset email/link is delivered to the student.	☐ Pass ☐ Fail ☐ N/A	
STU-A12	Reset-link validity Action: Open the reset link within one hour, then separately test an invalid or expired link. Expected: Valid link opens the reset form; invalid/expired link is rejected and returns the user to login with a clear message.	☐ Pass ☐ Fail ☐ N/A	
STU-A13	Reset password rules Action: Enter passwords that fail and then satisfy 8+ characters, lowercase, uppercase, number and special-character indicators. Expected: Rule indicators update correctly; confirm-password and Reset Password become usable only when values satisfy the UI rules and match.	☐ Pass ☐ Fail ☐ N/A	
STU-A14	Complete password reset Action: Submit a valid matching new password, then sign in with it. Expected: Password reset succeeds, token cannot be reused, old password fails, and new password signs in successfully.	☐ Pass ☐ Fail ☐ N/A	

B. Student navigation, header and session

ID	Test function, action and expected result	Result	Issue Ref.
STU-B01	Sidebar identity summary Action: After login, inspect the sidebar header. Expected: Correct student name, profile image/default image, programme name/code, study mode and current semester are shown.	☐ Pass ☐ Fail ☐ N/A	
STU-B02	Dashboard navigation Action: Select Dashboard/Home from the sidebar or UTeM/e-Pasca brand. Expected: Student Dashboard opens and the active navigation state is visible.	☐ Pass ☐ Fail ☐ N/A	
STU-B03	Programme Overview navigation Action: Select Programme Overview. Expected: Programme Overview opens and the sidebar item is marked active, including while a document submission page is open.	☐ Pass ☐ Fail ☐ N/A	
STU-B04	Journal Publication navigation Action: Select Journal Publication. Expected: Journal Publication page opens and the correct sidebar item is marked active.	☐ Pass ☐ Fail ☐ N/A	
STU-B05	Collapse and mobile navigation Action: Use the desktop collapse control and mobile menu control. Expected: Navigation opens/closes correctly, remains readable and does not cover essential page actions.	☐ Pass ☐ Fail ☐ N/A	
STU-B06	Account menu and My Profile Action: Open the user menu in the header and select My Profile. Expected: Menu opens, shows the student name/photo, and My Profile loads.	☐ Pass ☐ Fail ☐ N/A	
STU-B07	Logout Action: Select Logout from the user menu. Expected: Session is invalidated, success message appears on login, and browser Back cannot reopen protected student pages.	☐ Pass ☐ Fail ☐ N/A	

C. Student dashboard

ID	Test function, action and expected result	Result	Issue Ref.
STU-C01	Student welcome and current month Action: Open Student Dashboard. Expected: Welcome message shows the authenticated student's name and the current month/year.	☐ Pass ☐ Fail ☐ N/A	
STU-C02	Research title display Action: Inspect Research Title with a populated and an empty title. Expected: Saved title is displayed; an empty title is represented safely (for example, a dash).	☐ Pass ☐ Fail ☐ N/A	
STU-C03	Edit research title Action: Open Edit, enter a valid title up to 150 characters, and save. Expected: Modal opens; title is saved, normalized for display, and success feedback appears.	☐ Pass ☐ Fail ☐ N/A	
STU-C04	Research title validation/cancel Action: Try a title over 150 characters, then cancel/reset a valid unsaved edit. Expected: Overlength value is rejected with validation feedback; cancelled/reset changes are not saved.	☐ Pass ☐ Fail ☐ N/A	
STU-C05	Supervisor details Action: Inspect Supervisor information and select the email link. Expected: Assigned supervisor name/email are correct and mail link targets that address; unassigned state shows Not assigned.	☐ Pass ☐ Fail ☐ N/A	
STU-C06	Co-supervisor details Action: Inspect Co-Supervisor information and select the email link. Expected: Assigned co-supervisor name/email are correct and mail link targets that address; unassigned state shows Not assigned.	☐ Pass ☐ Fail ☐ N/A	
STU-C07	Upcoming reminders Action: Open Upcoming reminders with future-dated submissions. Expected: Count and rows match eligible submissions; each shows document, activity, required/optional badge, due date and relative deadline.	☐ Pass ☐ Fail ☐ N/A	
STU-C08	Due-today/tomorrow/seven-day labels Action: Use submissions due today, tomorrow, within seven days and later. Expected: Deadline wording and warning styles are correct for each boundary.	☐ Pass ☐ Fail ☐ N/A	
STU-C09	Overdue reminders Action: Open Overdue reminders with past-due actionable submissions. Expected: Overdue tab is selected when applicable; count, alert and 'Overdue by N days' labels are accurate.	☐ Pass ☐ Fail ☐ N/A	
STU-C10	No-reminder empty states Action: Use a student with no upcoming and no overdue actionable submissions. Expected: No urgent action message and appropriate empty states are displayed.	☐ Pass ☐ Fail ☐ N/A	
STU-C11	Reminder deep link Action: Select an upcoming and an overdue reminder. Expected: Correct Document Submission page opens for the selected submission.	☐ Pass ☐ Fail ☐ N/A	
STU-C12	Nomination/evaluator details Action: Inspect nomination details for assigned Examiner, Panel Member and Chairman records. Expected: Records are grouped by activity and show correct role, staff name and email link.	☐ Pass ☐ Fail ☐ N/A	
STU-C13	Nomination empty/completed state Action: Use an activity with no approved evaluators or one already completed. Expected: A clear no-details message is shown and completed activity nominations are not incorrectly listed.	☐ Pass ☐ Fail ☐ N/A	

D. My Profile and change password

ID	Test function, action and expected result	Result	Issue Ref.
STU-D01	Profile tabs Action: Open My Profile and switch between Personal Details and Change Password. Expected: Both tabs load correctly and the selected tab remains active after its form returns validation/success feedback.	☐ Pass ☐ Fail ☐ N/A	
STU-D02	Read-only identity fields Action: Inspect and try to change Email, Matric No and Programme. Expected: Correct values are shown and cannot be edited through the form.	☐ Pass ☐ Fail ☐ N/A	
STU-D03	Update name, phone and address Action: Edit student name, phone number and address with valid values, then save. Expected: Values persist after refresh, name is presented consistently, and success feedback appears.	☐ Pass ☐ Fail ☐ N/A	
STU-D04	Required name validation Action: Clear Student Name and save. Expected: Update is rejected, the field is identified, and other entered values remain available.	☐ Pass ☐ Fail ☐ N/A	
STU-D05	Phone validation Action: Enter nonconforming/overlength phone data and then a valid number. Expected: Invalid value is rejected according to the form/server limit; valid value saves with the +60 prefix presentation.	☐ Pass ☐ Fail ☐ N/A	
STU-D06	Upload profile photo Action: Choose a JPG, JPEG or PNG image and save. Expected: Preview updates; saved photo appears on profile, header and sidebar after refresh.	☐ Pass ☐ Fail ☐ N/A	
STU-D07	Reject invalid profile photo Action: Choose a non-image or unsupported image format. Expected: File is rejected with clear validation feedback and existing photo remains unchanged.	☐ Pass ☐ Fail ☐ N/A	
STU-D08	Reset profile photo Action: Select Reset Photo and save. Expected: Photo is removed and the default profile image appears consistently.	☐ Pass ☐ Fail ☐ N/A	
STU-D09	Password visibility controls Action: Use eye controls for old, new and confirm password fields. Expected: Each field independently toggles visible/masked without altering its content.	☐ Pass ☐ Fail ☐ N/A	
STU-D10	New-password rule indicators Action: Enter values that progressively meet length, lowercase, uppercase, number and special-character rules. Expected: Each indicator changes accurately and confirm/submit behaviour follows the displayed rules.	☐ Pass ☐ Fail ☐ N/A	
STU-D11	Wrong old password Action: Enter an incorrect old password with a valid matching new password. Expected: Password is not changed and a clear 'correct password' error is shown.	☐ Pass ☐ Fail ☐ N/A	
STU-D12	Mismatched/short new password Action: Use fewer than 8 characters or nonmatching confirmation. Expected: Submission is blocked or rejected with specific validation feedback.	☐ Pass ☐ Fail ☐ N/A	
STU-D13	Successful password change Action: Enter the correct old password and a valid matching new password, then save and re-login. Expected: Success feedback appears; old password fails and new password succeeds.	☐ Pass ☐ Fail ☐ N/A	

E. Programme Overview and academic records

ID	Test function, action and expected result	Result	Issue Ref.
STU-E01	Inactive-semester notice Action: Open Programme Overview as a student not active in the current semester. Expected: Enrollment Notice is displayed with guidance and Back to Home; activity submission controls are not exposed.	☐ Pass ☐ Fail ☐ N/A	
STU-E02	Activity order and identity Action: Open Programme Overview as an active student. Expected: All configured programme activities appear in configured sequence with correct names.	☐ Pass ☐ Fail ☐ N/A	
STU-E03	Activity status labels Action: Verify test data covering open, locked, pending supervisor, pending committee, approved, rejected, evaluation, correction, failed and continue-next-semester states. Expected: Each underlying activity state displays the correct human-readable badge and colour category.	☐ Pass ☐ Fail ☐ N/A	
STU-E04	Journal prompt/action availability Action: Inspect an activity configured for journal publication in eligible open/rejected/correction states. Expected: Optional journal guidance and/or Manage Journal Publication action appears only when intended.	☐ Pass ☐ Fail ☐ N/A	
STU-E05	Download flowchart/material Action: Select Download for an activity with material. Expected: Correct stored material opens/downloads in a new tab; signed link works and content is readable.	☐ Pass ☐ Fail ☐ N/A	
STU-E06	No material state Action: Inspect an activity without a material file. Expected: 'No material uploaded' is displayed without a broken link.	☐ Pass ☐ Fail ☐ N/A	
STU-E07	View approved final document Action: Select View Final Document for an activity with a confirmed final submission. Expected: Correct PDF opens for the student, activity and semester.	☐ Pass ☐ Fail ☐ N/A	
STU-E08	View final correction document Action: Select View Final Document (Correction) where available. Expected: Correct correction PDF opens and is not confused with the original final document.	☐ Pass ☐ Fail ☐ N/A	
STU-E09	View evaluation reports Action: Open each listed evaluation report across available semesters. Expected: Report filename and semester label are correct; each PDF opens successfully.	☐ Pass ☐ Fail ☐ N/A	
STU-E10	Review modal with comments Action: Select View Review for an activity containing reviews. Expected: Modal lists the correct reviewer, date/time, relative time and full comment text.	☐ Pass ☐ Fail ☐ N/A	
STU-E11	Review modal empty state Action: Open View Review for an activity with no comments. Expected: Modal displays 'No reviews found' without an error.	☐ Pass ☐ Fail ☐ N/A	
STU-E12	Document cards and semester labels Action: Inspect documents for repeatable and non-repeatable activities. Expected: Document name, current/relevant semester (repeatable only), required/optional badge, status, due date and deadline are correct.	☐ Pass ☐ Fail ☐ N/A	
STU-E13	Submission status variants Action: Verify No Attempt, Submitted, Overdue, Locked and prohibited/other document states. Expected: Correct badge and available/disabled action are shown for every status.	☐ Pass ☐ Fail ☐ N/A	
STU-E14	Submission actions by activity state Action: Compare document actions while activity is open/rejected/correction versus pending/approved. Expected: Upload/View Submission is available only in permitted activity states; pending/approved states are locked.	☐ Pass ☐ Fail ☐ N/A	
STU-E15	No document / no activity empty states Action: Use an activity with no available documents and a programme with no activities. Expected: The relevant informative empty-state message is displayed.	☐ Pass ☐ Fail ☐ N/A	

F. Document submission

ID	Test function, action and expected result	Result	Issue Ref.
STU-F01	Open correct submission Action: From Programme Overview or Dashboard, open a document. Expected: Page title/activity/document are correct and Back navigation returns to Programme Overview.	☐ Pass ☐ Fail ☐ N/A	
STU-F02	No-attempt/overdue summary Action: Open a future-due unsubmitted document and a past-due unsubmitted document. Expected: Status, exact due date and relative deadline are correct; overdue page includes an urgent warning.	☐ Pass ☐ Fail ☐ N/A	
STU-F03	Submitted summary Action: Open an already submitted document. Expected: Submission date, before/after deadline timing, filename link, Update and Remove controls are shown.	☐ Pass ☐ Fail ☐ N/A	
STU-F04	Open submitted PDF Action: Select the submitted filename. Expected: Correct student-owned PDF opens in a new tab and is readable.	☐ Pass ☐ Fail ☐ N/A	
STU-F05	Open/cancel upload area Action: Select Submit Document, then Cancel. Expected: Upload area appears; Cancel clears selected files/preview and returns to the status summary without saving.	☐ Pass ☐ Fail ☐ N/A	
STU-F06	No-file validation Action: Open upload area and select Save Changes without choosing a file. Expected: User is told to select a document; no submission is created.	☐ Pass ☐ Fail ☐ N/A	
STU-F07	File type validation Action: Try to add a non-PDF file. Expected: Uploader/server rejects the file and explains that only PDF is allowed.	☐ Pass ☐ Fail ☐ N/A	
STU-F08	File count validation Action: Try to add more than one PDF. Expected: Only one file is accepted and the user receives clear feedback.	☐ Pass ☐ Fail ☐ N/A	
STU-F09	File size validation Action: Try PDFs below and above 100 MB. Expected: File up to the limit is accepted; over-limit file is rejected before or during submission with clear feedback.	☐ Pass ☐ Fail ☐ N/A	
STU-F10	PDF preview Action: Add a valid PDF on desktop-size viewport, then remove it from the uploader. Expected: Preview shows the selected PDF; removing it clears/hides the preview.	☐ Pass ☐ Fail ☐ N/A	
STU-F11	Submit valid PDF Action: Add one valid PDF and select Save Changes. Expected: Saving/progress state appears, page reloads, status becomes Submitted, date is recorded, and file uses the system naming/location convention.	☐ Pass ☐ Fail ☐ N/A	
STU-F12	Update submission Action: Select Update Submission, replace the existing PDF and save. Expected: Existing file loads into the uploader where supported; replacement succeeds and summary/file link reflect the new upload.	☐ Pass ☐ Fail ☐ N/A	
STU-F13	Remove submission - cancel Action: Select Remove Submission, then Cancel in the confirmation dialog. Expected: Dialog closes and the submission/file remain unchanged.	☐ Pass ☐ Fail ☐ N/A	
STU-F14	Remove submission - confirm Action: Confirm removal of an existing submission. Expected: File is removed, success message appears, submission date clears, and status returns to No Attempt or Overdue based on deadline.	☐ Pass ☐ Fail ☐ N/A	
STU-F15	Upload failure recovery Action: Simulate validation/server/network failure during Save Changes. Expected: Specific validation or general retry message appears; button re-enables and the user can retry without duplicate records.	☐ Pass ☐ Fail ☐ N/A	

G. Final submission, correction and reviews

ID	Test function, action and expected result	Result	Issue Ref.
STU-G01	Final-confirm eligibility - required documents Action: Complete all required documents for an eligible activity. Expected: Confirm Submission appears only after every required document is submitted and disallowed statuses do not qualify.	☐ Pass ☐ Fail ☐ N/A	
STU-G02	Final-confirm eligibility - optional-only activity Action: For an activity with no required documents, submit at least one optional document. Expected: Confirm Submission becomes available as designed; zero optional submissions do not qualify.	☐ Pass ☐ Fail ☐ N/A	
STU-G03	Confirmation guidance Action: Open Confirm Submission. Expected: Guidelines explain final review, original work, legal validity, locking and approval/revision outcome.	☐ Pass ☐ Fail ☐ N/A	
STU-G04	Signature required and clear Action: Try Confirm & Sign with an empty pad; draw a signature, select Start over, and try again. Expected: Empty signature is blocked; Start over clears the pad; a new signature can be drawn.	☐ Pass ☐ Fail ☐ N/A	
STU-G05	Confirm and sign final submission Action: Draw a signature and select Confirm & Sign once. Expected: Button prevents duplicate submission, signed form is generated, activity moves to pending supervisor approval, documents lock, and success message appears.	☐ Pass ☐ Fail ☐ N/A	
STU-G06	Supervisor notification Action: Complete final confirmation where a main supervisor is assigned. Expected: Supervisor receives the intended email with correct student/activity/submission details; absence of a supervisor does not crash the student flow.	☐ Pass ☐ Fail ☐ N/A	
STU-G07	Correction confirmation availability Action: Use Minor/Major Correction or correction-rejected activity states. Expected: Confirm Correction appears only in the intended correction states, with journal action where configured.	☐ Pass ☐ Fail ☐ N/A	
STU-G08	Confirm correction with signature Action: Open correction modal, verify signature validation/clear, then sign and confirm. Expected: Correction is generated and recorded, activity moves to pending supervisor correction approval, and success feedback appears.	☐ Pass ☐ Fail ☐ N/A	
STU-G09	Post-confirmation locking Action: Reopen Programme Overview after final or correction confirmation. Expected: Relevant upload/confirmation controls are no longer available until a workflow state permits revision.	☐ Pass ☐ Fail ☐ N/A	

H. Journal Publication management

ID	Test function, action and expected result	Result	Issue Ref.
STU-H01	Load journal list Action: Open Journal Publication. Expected: Only the authenticated student's records load with row number, journal name, Scopus/ISI indicator, created date and actions.	☐ Pass ☐ Fail ☐ N/A	
STU-H02	Table interaction Action: Use available search, sorting, pagination and responsive table controls with multiple records. Expected: Displayed results and ordering are accurate; controls remain usable on smaller screens.	☐ Pass ☐ Fail ☐ N/A	
STU-H03	Open/close Add modal Action: Select Add Journal Publication, then Cancel/close. Expected: Modal opens with clean fields and closes without creating a record.	☐ Pass ☐ Fail ☐ N/A	
STU-H04	Add validation Action: Submit Add with blank Journal Name and/or no Scopus/ISI selection. Expected: Inline validation identifies missing required values and no record is added.	☐ Pass ☐ Fail ☐ N/A	
STU-H05	Add journal publication Action: Enter a journal name, choose Yes or No for Scopus/ISI, and submit. Expected: Success toast appears, modal resets/closes, and new record appears without a full-page error.	☐ Pass ☐ Fail ☐ N/A	
STU-H06	Open Edit modal Action: Select Edit for a row. Expected: Correct journal ID, name and Scopus/ISI value are loaded into the modal.	☐ Pass ☐ Fail ☐ N/A	
STU-H07	Update journal publication Action: Change name and/or Scopus/ISI and submit. Expected: Validation works; success toast appears and the same row refreshes with saved values.	☐ Pass ☐ Fail ☐ N/A	
STU-H08	Delete - cancel Action: Select Delete, then Cancel. Expected: Warning dialog closes and record remains.	☐ Pass ☐ Fail ☐ N/A	
STU-H09	Delete - confirm Action: Select Delete and Delete Anyway. Expected: Success toast appears and the selected record is removed from the table.	☐ Pass ☐ Fail ☐ N/A	
STU-H10	Journal error recovery Action: Simulate add/update/delete failure. Expected: Error toast is shown, action button re-enables, modal/table remain usable, and data is not falsely changed.	☐ Pass ☐ Fail ☐ N/A	

I. Security, access control and usability

ID	Test function, action and expected result	Result	Issue Ref.
STU-I01	Unauthenticated route protection Action: Sign out and directly open each /student page URL. Expected: User is redirected to login and protected student content is not disclosed.	☐ Pass ☐ Fail ☐ N/A	
STU-I02	Cross-student submission access Action: As Student A, attempt to open or mutate Student B's submission using a copied/modified identifier. Expected: Access is denied; Student B's file and record are unchanged.	☐ Pass ☐ Fail ☐ N/A	
STU-I03	Cross-student journal isolation Action: Attempt to view/update/delete another student's journal record by altering request data. Expected: Other student's records are not exposed or modified; request is rejected/logged as appropriate.	☐ Pass ☐ Fail ☐ N/A	
STU-I04	Invalid/missing files Action: Open a link whose material/final/submission file is missing or invalid. Expected: System returns a controlled not-found/error response and no server path or sensitive details are exposed.	☐ Pass ☐ Fail ☐ N/A	
STU-I05	Duplicate-submit protection Action: Double-click Save/Confirm/Add/Update/Delete actions or retry during loading. Expected: Buttons disable while processing and only one intended record/action is created.	☐ Pass ☐ Fail ☐ N/A	
STU-I06	Responsive layout Action: Test login, dashboard, profile, programme, submission and journal pages at desktop, tablet and phone widths. Expected: Content remains readable; tables/cards wrap or scroll; modals, navigation and primary actions stay accessible.	☐ Pass ☐ Fail ☐ N/A	
STU-I07	Keyboard and focus usability Action: Navigate key pages, menus, tabs, modals and forms using keyboard only. Expected: Focus is visible and logical; controls can be operated; modal focus returns appropriately.	☐ Pass ☐ Fail ☐ N/A	
STU-I08	Messages and data persistence Action: Trigger success, validation and server-error responses across student functions, then refresh relevant pages. Expected: Messages are clear/dismissible, no duplicate action occurs on refresh, and successfully saved data persists.	☐ Pass ☐ Fail ☐ N/A	

2. Issue / defect log

Complete one block for every failed test. Attach screenshots or recordings separately and use the same Issue Ref.

ISS-01	Related Test ID: _____	Severity: ☐ Critical ☐ High ☐ Medium ☐ Low
